NEVADA
TRAIL FINDER

OuterSpatial

Technology Overview

A solid orange horizontal bar at the bottom of the slide.

What is it?

- State sponsored, state and federally funded mapping website
- Go-to resource for discovering new trails in your backyard and across the state

Background

- Started in 2018 - Great Basin Institute (GBI), Nevada State Parks, and Nevada OHV Program created the Mapping Collaborative to collect data and create maps. Hired Center for Community GIS (CCGIS) to create website, data export tools
- Website launched Fall 2022 and managed by Nevada Division of Outdoor Recreation (NDOR)

- ## Features

- Postings Complete with -
 - Trail Maps
 - Trailhead Descriptions
 - Local Campsites and Lodging
 - Nearest Towns and Cities
 - Safety Information
 - Land Manager Contacts
 - Local Weather Conditions
 - Link to Flow Conditions for Waterway Trails
- Available Data Downloads

DETAILS

TRAIL MAP

DIRECTIONS

COMMENTS (0)

DESCRIPTION

The trail system is a mix of easy, intermediate and difficult trails. Both mountain bikers and hikers use these trails. The back side of the mountain is also designated for motorized use.

The trail system is open year-round but may be covered in snow during the winter months. There is little to no shade on this mountain so be prepared when traversing the trails in the heat of the summer months. It is recommended to go in the spring or fall months.

The Rancho San Rafael Park area is ADA accessible and has a beautiful dog park.

OTHER INFORMATION

These are multi-use trail systems. Please recreate responsibly and be courteous of other trail users while using OHVs.

More information can be found at the following websites:

- Rider Planet Information on Peavine

RECREATE RESPONSIBLY

Dispose of Waste Properly
Pack it in, pack it out. This goes for trash, leftover food, toilet paper, and hygiene products. If you brought it into nature, please bring it out.

OuterSpatial

What is it?

- A browsable app containing an up-to-date library of outdoor recreation information maintained by partner agencies.

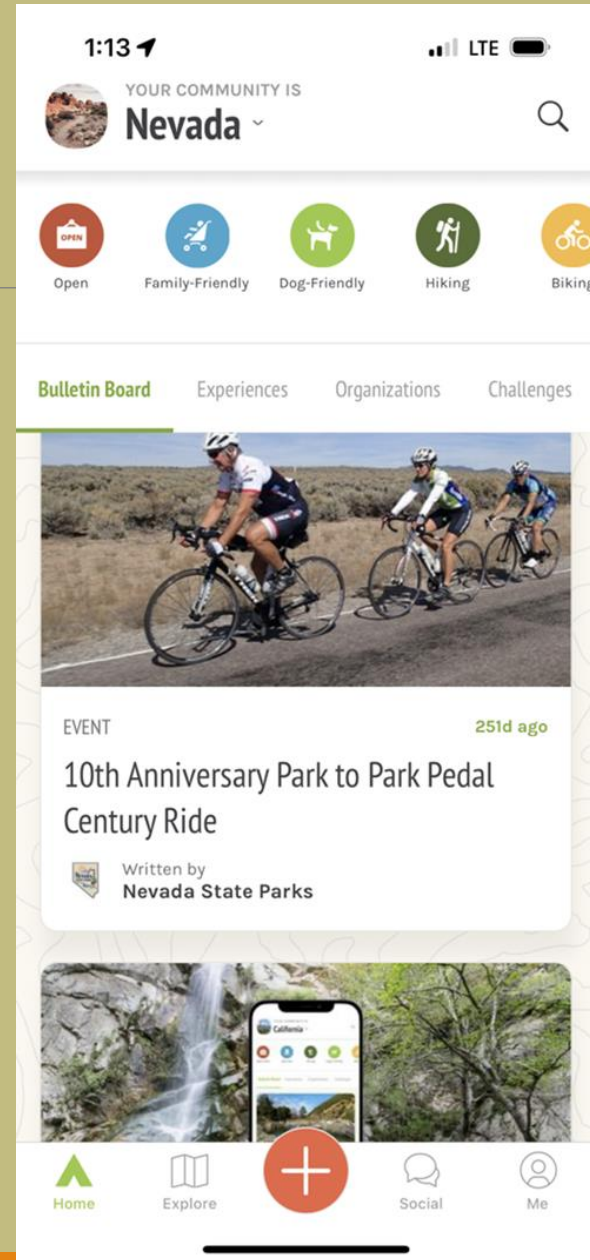

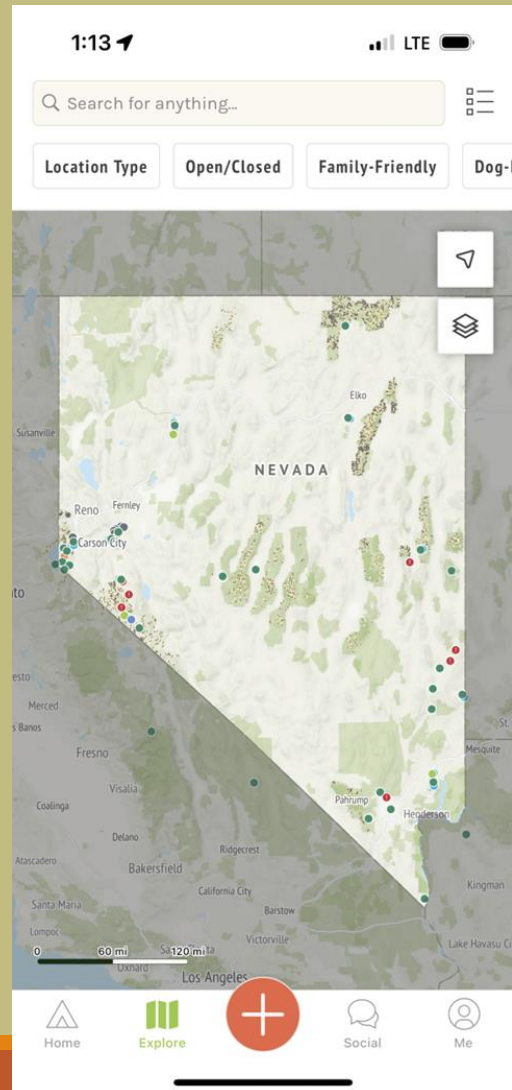

Background

- Nevada State Parks initiated as a solution to lost park visitors.

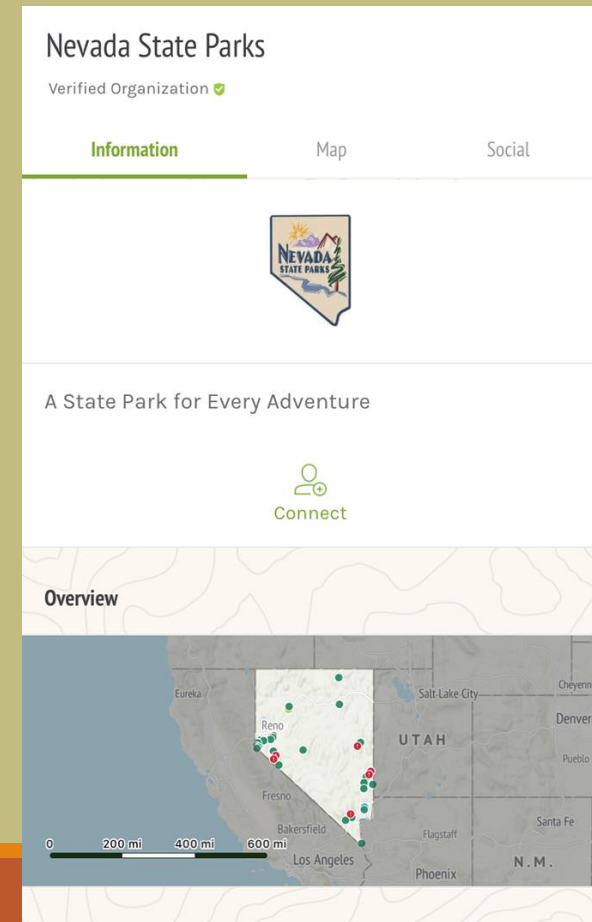

Features

- Provides a more interactive experience for park visitors
- Improves safety and reduces number of lost hikers
- Ability to geolocate without cell service
- Allows visitors to see their location in real time

OuterSpatial

- Publish events and alerts to keep visitors informed
- Create challenges to encourage visitors to get outdoors
- Replace/reduce paper brochures
